

Astronomy-themed experiments competition

last date
for

Registration:

23rd September, 2024

Submission:

31st December, 2024

The objective of this competition is to design astronomy-themed experiments for undergraduate and postgraduate laboratories in institutions of higher education, including engineering institutions. Ongoing experiments may also be submitted for consideration. It could be on any area of astronomy and astrophysics on either science or engineering aspects.

Individual faculty members/demonstrators/scientific assistants involved in college/university-level teaching are invited to participate, and fill up the registration form.

They may consult and collaborate with others, suitably crediting their contributions in the write-up(s) of the experiment(s). The registered faculty member/demonstrator/scientific assistant may contribute more than one experiment.

The submitted experiments must be conducted and validated before writing up in the format given in the registration form.

It is proposed to invite select entries for a workshop on this theme at IUCAA. Prizes will be awarded to the top three entries.
